36732	7590	04/05/2005	EXAMINER	
LAW OFFICE OF STANLEY K. HILL, PLC P.O. BOX 52050 MINNEAPOLIS, MN 55402			VERBITSKY, GAIL KAPLAN	
			ART UNIT	PAPER NUMBER
			2859	

DATE MAILED: 04/05/2005

Please find below and/or attached an Office communication concerning this application or proceeding.

<b>Office Action Summary</b>	<b>Application No.</b> 10/670,586	<b>Applicant(s)</b> MARTIN ET AL.	
	<b>Examiner</b> Gail Verbitsky	<b>Art Unit</b> 2859	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

- 1) ☒ Responsive to communication(s) filed on 03 January 2005.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

#### Disposition of Claims

- 4) ☒ Claim(s) 1-42 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) \_\_\_\_\_ is/are allowed.
- 6) ☐ Claim(s) \_\_\_\_\_ is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☒ Claim(s) 1-42 are subject to restriction and/or election requirement.

#### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on \_\_\_\_\_ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

#### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).  
a) ☐ All    b) ☐ Some \*    c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
  2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
  3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- \* See the attached detailed Office action for a list of the certified copies not received.

## DETAILED ACTION

### *Response to Arguments*

#### *Election/Restrictions*

1. Applicant's election with traverse of claims 1-4, 10-13 in the reply filed on telephonic interview is acknowledged. The traversal is on the ground(s) that the restriction was improper in that, according to the specification, the Inventions are capable of being used together. Applicant states that the thermocouple (Invention II) is used to measure both, the temperature and the electrical resistance. This is not found persuasive because, the method of Invention I (claims 5-9, 14-25) is one embodiment (as admitted by applicant in pages 14-15 of the specification), directed to measuring of wear of a liner by means of determining the wear of an electrical wire, which, although could be used with a thermocouple wire, is different from the method of Invention II (claims 1-4, 10-13) which method is another embodiment (as admitted by applicant in pages 14-15 of the specification), directed to determining a temperature (not wear) of the thermocouple (not an electrical resistance of its wire), and estimating the wear as a function of this temperature over time.

If, according to applicant's arguments, the methods of Invention I and Invention II are capable of being used together, and the thermocouple is used to measure both, the electrical resistance and temperature, then such a claim would have redundant limitations, because, there would be two different steps of measuring wear: by measuring the electrical resistance of the thermocouple and by measuring the temperature to estimate the wear. Also, it is very well known in the art that

Art Unit: 2859

thermocouples are normally used to measure temperature by determining voltage difference (not resistance), therefore, it becomes obvious that the step of measuring of the electrical resistance of the thermocouple cannot be used in determining of the temperature.

Claims 26-42 of Invention III are directed to a liner classified in different class and requiring different search.

Therefore, the election / restriction requirement is still deemed proper and is therefore made FINAL.

2. The reply filed on the Office Action mailed on September 23, 2004 is found to be non-responsive since Applicant has cancelled the elected claims. Applicant's arguments filed on September 23, 2004 have been fully considered but they are not persuasive due to the reasons stated above in paragraph 1.

### ***Conclusion***

3. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 2859

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The prior art cited in the PTO-892 and not mentioned above disclose related devices and methods.

Any inquiry concerning this communication should be directed to the Examiner Verbitsky who can be reached at (571) 272-2253 Monday through Friday 8:00 to 4:00 ET.
